Subject: Introduction of Weekly Cyclic Class Test — Grades 5 to 9

Dear Parents,
Greetings from Woodlem Park Al Hamidiya Private School!

We are pleased to introduce a **Weekly Cyclic Class Test for students of Grades 5 to 9**, starting **Monday, 7th September 2026**. This initiative is designed to build consistent study habits, provide students with frequent and timely feedback, and keep you informed of your child's progress on a regular basis.

Overview

- Grades covered: **5, 6, 7, 8 and 9**
- Subjects covered: **Mathematics, Science and Social Studies (SST)**
- Frequency: **Once a week, during the 1st period, on a fixed day**
- Format: **One subject will be tested each week, rotating through the three subjects on a 3-week cycle**
- Duration: **30 minutes** Marks: **10**
- Start date: **7th September 2026**
- **Students scoring less than 5 out of 10 will be given a retest**

Test Schedule & Rotation

Each week, all sections of Grades 5–9 will take a short test in the same subject during the 1st period. The subject rotates weekly, so the test remains light—one subject, one day—while ensuring all three subjects are covered every three weeks, as shown below.

Week	Subject Tested	Test Day
Week 1	Mathematics	Tue (Gr 5, 6, 9) / Wed (Gr 7, 8)
Week 2	Science	Tue (Gr 5, 6, 9) / Wed (Gr 7, 8)
Week 3	Social Studies (SST)	Tue (Gr 5, 6, 9) / Wed (Gr 7, 8)
Week 4	Cycle repeats	Tue (Gr 5, 6, 9) / Wed (Gr 7, 8)

Parent Notification

Test marks will be entered into the system, and parents will receive an automated notification with their child's marks and teacher remarks.

Parents are kindly requested to:

- Encourage **regular revision and preparation**.
- Check the weekly test notification and discuss the result with your child.
- Provide additional support if your child is required to take a retest.

We believe this initiative will strengthen learning outcomes and keep the home–school partnership strong through consistent, transparent communication. We thank you for your continued support and cooperation.
