Subject: Drug & Substance Abuse Prevention – Awareness and Guidance

Dear Parents,

Greetings from Woodlem Park Al Hamidiya Private School!

At **Woodlem Park Al Hamidiya Private School**, the safety, health and wellbeing of our students remain a priority. We believe that creating awareness about the risks associated with drugs and other harmful substances is an important part of supporting students in making safe, healthy and responsible choices.

Drug prevention education helps students develop awareness, sound decision-making skills and the confidence to make positive choices. It also encourages them to seek appropriate guidance and support when faced with concerns or difficult situations.

As part of our commitment to student safety and wellbeing, the school has developed a **Drug & Substance Abuse Prevention Policy**, which outlines our approach to prevention, awareness, education and support.

The policy is attached for your information and reference. We encourage parents to read the policy and work together with the school in promoting a safe, healthy and supportive environment for all students.

Thank you for your continued support and cooperation.

Warm Regards,

Principal
