

Subject: Textbook-Based Learning Initiative – Grades 5–10

Dear Parents,

Greetings from Woodlem Park Al Hamidiya Private School!

In line with the UAE's renewed focus on learning through textbooks, Woodlem Park Al Hamidiya has taken the initiative to strengthen textbook-based learning during the second term, from October to March.

For further reference, kindly find the link below: [Click Here](#)

As part of this initiative, lessons for students from Grades 5 to 10 will be gadget-free. Students are therefore requested not to bring any gadgets to school, including mobile phones, tablets, smart devices or other electronic gadgets.

However, should there be a specific academic or school-related requirement for students to bring a gadget, parents will be informed in advance by the respective Class Teacher or Head of Section.

We kindly request all parents to communicate this expectation to their children and ensure that they do not carry any gadgets to school unless specifically instructed by the school.

Your cooperation and support in helping us create a focused and distraction-free learning environment are greatly appreciated.

Thank you for your continued support.

Warm Regards,

**Principal
Shiny Davison**
